

# Shell Scheme Solutions

# Introduction

Xhibit meets the needs of exhibition and event organisers. We provide modular display systems, rent furniture and accessories.

We know that in our industry dependability in every aspect of what we do is vital. That is why our procedures and stock control are fine-tuned to deliver and collect precisely what is wanted, exactly as expected.

It is the reason, too, that we are just as committed to the success of our clients' events as they are.

## Concept

**The need for the show organiser to provide an ordered look for the exhibition, with clearly delineated display areas for each exhibitor is met with style by the AVEX exhibition system.**

**Anodised aluminium profiles and grey tweed covered velcro-compatible panels provide a structure which allows an area for each exhibitor to concentrate on their individual design.**

**Fascia boards provide a fixing point for nameboards and stand numbers for each exhibitor.**

**Xhibit offers the organiser the opportunity, there is a cost implication, to create an exhibition brand, with a choice of different coloured panels, or fascia boards.**

## Co-ordination

**At the early stages of planning the exhibition, Xhibit will provide a site survey, an exhibition floor plan and stand numbering to the client's specification. Costings will accompany the technical specification and the plan. To assist in the trouble free management of the event Xhibit will co-ordinate the installation and dismantling of the exhibition and the electrical installation with the venue.**

### Transportation

Xhibit has wide experience of transporting, installing and dismantling exhibitions throughout the UK and Europe.

### Carpeting

Be it carpeting of individual stands or complete halls Xhibit can provide either service. Make a further opportunity to enhance the appearance of the exhibition by matching or contrasting your exhibition colour.

### Electrical

A standard electrical package, and/or a whole range of electrical accessories are available all installed by qualified electricians.

### Room Divides and Temporary Structures

The AVEX panelling system creates an excellent system for room divides, and temporary offices.

### Registration Desks

Purpose built registration desks are easily provided with the AVEX system.

### Technical Specification

The drawings allow exhibitors to design appropriate graphics panels and decide on other accessories.

Making sure your stand looks good is important, Xhibit will provide the technical information you require to achieve this.
